

RESTORE YOUR SKIN'S BRIGHTNESS
AND YOUTHFUL APPEARANCE WITH

DIAMOND LUMINOUS

BEAUTY ROOM TREATMENT

Corrects · Brightens · Rejuvenates

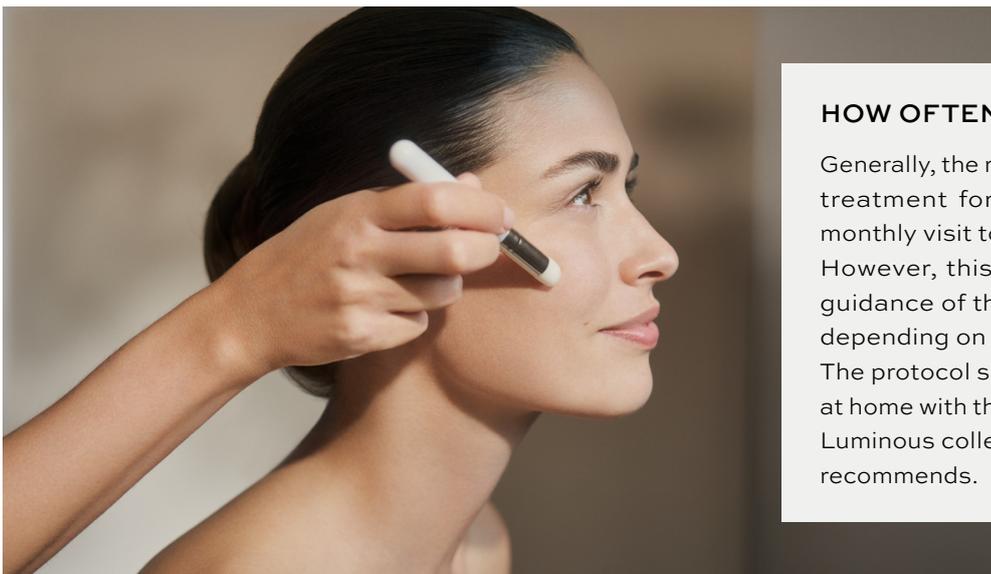

DURATION: 60 MINUTES

Adhering to the same philosophy as the latest products in the Diamond Luminous collection, this innovative treatment stands out for its dual efficacy, revealing skin that is more evenly toned and rejuvenated. This beauty room experience is ideal both to fade localized dark spots and to combat irregular pigmentation, melasma or a dull skin tone, and you will begin to see results from the very first session.

The first step in this advanced protocol is a luxurious **cleansing ritual**, which already starts to incorporate brightening ingredients. The cleanse is followed by an effective **perfecting peel**, which renews, evens out and visibly refines the skin surface.

Next, a brightening concentrate is applied with Natura Bissé's exclusive **precision brush** and an "**erasing**" **technique** that helps reduce hyperpigmentation. This intensive correction phase is completed with the **application of a LED light**.

The lifting and shiatsu massage duo stimulates the skin and works on key points on the face for noticeably rejuvenating action. Lastly, the **renewing, intense hydration and soothing mask** adds the final touch to reveal incredibly supple, luminous, firm and plump skin, which is then protected with **sunscreen**, an essential component in any treatment designed to combat hyperpigmentation.

HOW OFTEN CAN YOU ENJOY IT?

Generally, the recommended plan is a weekly treatment for one month followed by a monthly visit to the spa to maintain results. However, this may vary according to the guidance of the professional aesthetician depending on each client's specific needs. The protocol should also be complemented at home with the products from the Diamond Luminous collection that the beauty adviser recommends.
